

ADULT (15-49 years) HUMANKIND HIV PREVALENCE STATUS at End-1999  
 RP Bernard, AF, Geneva Switzerland

Objective: Transform some Appendix-statistics of the UNAIDS-WHO REPORT on the global HIV/AIDS epidemic, June 2000, as made available to the delegates of the XIII International AIDS Conference in Durban, 9-14 July 2000 (red document rucksack) - into AF MODULES for study/teaching/course work and decision makers(ing) - at all levels in all countries.

*This has been executed in 42 modules and released in successive steps in Nagpur, India (Vol 1, AFRICA & ASIA/NARCHI-ICMCH, Nov 2000), then in Geneva, Switzerland (Vol 2, AMERICAS & EUROPE, AF, April 2001), then in New York, USA (Summary cover to 'Atlas' with 65 highest HIV density countries, with reprinted Vol 1 & 2), UNGASS-54, Special Session on HIV/AIDS, 25-27 June 2001, via Civil Society Conference. Meanwhile, 96% of 10'300 'World HIV DENSITY ATLAS, end-1999' were dispersed worldwide for modular teaching, cafeteria style. This is an excellent worldwide preparation for studying the next UNAIDS-WHO REPORT to be available at the XIV International AIDS Conference in Barcelona at mid-2002. Various centers will then know how to 'extract' from the Appendix-statistics and compose 'their-INTEREST' Tables and Charts.*

A Conference Objective could be to extract from the World Inventory in Vol 1, pp 4-5 (n=167), some prevalence rates pertaining to Asia and in the context of some nations around the world. Here is such an exercise:

ADULT HIV DENSITY multiples/quotients of INDIA's HIV DENSITY ( $70/10^4 = 1$ )

AFRICA	AMERICAS	EUROPE	ASIA/PACIFIC	LEVEL
Sth Africa 28.5		[16%]1b		
Kenya 19.9				HIGHEST
Mozambique 18.9				1
Ivory Coast 15.4				
Ethiopia 15.2				
Uganda 11.9				
Tanzania 11.6		8%1c		800/10 <sup>4</sup>
DR Congo 7.2				VERYHIGH
Nigeria 7.2				2
			Cambodia 5.8	
			Thailand 3.1	200/10 <sup>4</sup>
			Myanmar 2.8	
		2%		
		Ukraine 1.37		HIGH
			INDIA 1	3
			[70/10 <sup>4</sup> ]	
		Spain .83		50/10 <sup>4</sup>
		.5%		
		France .66		
			Malaysia .60	
		Italy .50		INTER-
				4
			Nepal .42	MEDIATE
			Viet Nam .34	
		Russia .27		
		.125%	Australia .21	12.5/10 <sup>4</sup>

READING  
 EXAMPLES

To each adult living with HIV/AIDS in INDIA end-1999, live population adjusted 28.5 in South Africa, 15 in Ethiopia, 12 in Uganda, 5.8 in Cambodia, 3.1 in Thailand, 2.8 in Myanmar, 1.37 in Ukraine, .87 in the USA, .81 in Brazil, .50 in Peru/Italy, .41 in Mexico, etc
